SUMMARY

Full Stack Developer with 1.8 years of experience building and shipping production SaaS products end to end. Strong backend focus (Python/FastAPI, Celery, Redis) with Next.js frontends, deployed on Azure and AWS using Docker and CI/CD. Delivered enterprise multi-tenant platforms for international clients and launched multiple independent AI and SaaS products from scratch.

SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS
Frontend: React.js, Next.js, Redux Toolkit (RTK Query), Tailwind CSS, ShadCN, PrimeReact
Backend: FastAPI, Node.js, Express.js, REST API Design, Celery, Redis, WebSockets (Socket.io), WebRTC, SQLAlchemy, Alembic, Prisma, Mongoose, Motor.
Security & Auth: JWT, OAuth 2.0, Role-Based Access Control (400+ permissions), Multi-Tenant Data Isolation
AI / LLM: LangChain, LangGraph, AI Agents, Prompt Engineering.
AI Tools: Claude Code, ChatGPT
Databases: PostgreSQL, MySQL, MS SQL Server, MongoDB, Firebase
Cloud & DevOps: Docker (Containerization), AWS (EC2, S3), Azure (VMs, App Service, Blob Storage), Backblaze B2 (S3-compatible), CI/CD (Azure Pipelines), Nginx, Vercel, Render
Payments: Razorpay, Stripe
Tools: Git, GitHub, Azure DevOps, Bitbucket, Figma

EXPERIENCE

Full Stack Developer | Code Metrics, Greater Noida | Jul 2025 - Present

NitroHR: Multi-tenant HRMS for a Latin America-based client

- Architected the core backend in FastAPI with 400+ REST endpoints across 30+ modules, including payroll, work letters, and contract management, etc.
- Designed a dynamic RBAC system with 400+ granular permissions for role-specific access across tenants.
- Integrated Stripe payment gateway for subscription billing.
- Implemented internationalization using i18next in the Next.js 15 frontend to support multiple languages for international users.
- Developed Celery and Redis workers for scheduled cron jobs and background processing.
- Developed responsive, reusable UI in Next.js 15 with Redux and Tailwind CSS.
- Deployed on Azure VMs with Docker, stored documents in Azure Blob Storage, and set up the CI/CD pipeline.

CASuite: Multi-tenant SaaS platform for CA firms

- Developed the entire FastAPI backend for a platform covering task management, employee management, a customizable client website, and an auto-updating compliance calendar and news feed.
- Solved the core challenge of serving multiple client sites from one frontend deployment, each acting as an isolated, branded site, using tenant-aware routing and per-tenant data isolation.
- Developed key frontend modules in Next.js, Redux, and Tailwind CSS.
- Containerized with Docker and deployed on Azure, using Redis caching and Celery for async jobs.

Full Stack Developer | Webpristine Technologies, Noida | Mar 2025 - Jul 2025
JB Military: E-commerce platform

- Split development evenly between the React/Redux (RTK Query) frontend and the Node.js/Express backend with MongoDB and Prisma.
- Delivered production-ready release: bug fixing, performance, testing, & payment work.
- Deployed on AWS EC2 with S3 for file storage.

Web Development Intern | Aryson Technologies, Noida | Nov 2024 - Mar 2025
SysInfoTools website

- Engineered pages for the SysInfoTools website using HTML and CSS, making the site accessible to international users.
- Redesigned the entire website with a modern, responsive UI, improving the mobile experience across devices.

PRODUCTS BUILD END-TO-END

Independent products, designed, engineered, and deployed solo.

ClarixAI | https://www.clarixai.in/ | https://github.com/kartik-sharma17/PROMPT-GENERATOR
Subscription SaaS that helps users get the desired LLM output in one go, reducing retries and token consumption.

- Built LangChain/LangGraph agents and tools that structure prompts for accurate first-attempt outputs; FastAPI, MongoDB (Motor), Next.js.
- Integrated Razorpay subscriptions; deployed on Vercel and Render, 50+ registered users, 6 paying.

Shaan | https://github.com/kartik-sharma17/wedding-cards
Create and share invitation cards for weddings, festivals, and other events.

- Designed 50+ customizable templates across events and themes with Next.js and FastAPI.
- Enabled free card sharing, with paid PDF download via Razorpay; deployed on Vercel and Render.

Vault | file-manager-web-psi.vercel.app | https://github.com/kartik-sharma17/File-Manager
Cloud storage app built in 15 hours at a startup hackathon.

- Built secure file storage on Backblaze B2 (S3-compatible) with 1 GB single-file uploads and 15 GB free storage per user.
- Implemented time-limited sharing links; developed with Next.js and FastAPI.

EDUCATION

Bachelor of Technology in Computer Science Engineering | 2022 - 2025
Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow

Diploma in Engineering | 2019 - 2022
Board of Technical Education, Uttar Pradesh (BTEUP)
